We turn first to what the Single Judge accurately described as a technical matter to be dealt with on the papers. For each breach of a Serious Crime Prevention Order, that is counts 3, 4, 5, 6 and 13 on indictment 20150094, and counts 7, 9 and 10 on indictment T20150375, we reduce the term of 15 months to one of 12 months, concurrent inter se, but consecutive to the sentence on T20150375, that is 48 months, for stalking. The sentence for fraud, nine months, remains concurrent and on our mathematics that amounts to 60 months.

22. We agree with the view of the Single Judge on all other matters. We refuse an extension of time, although, as will have been plain by this brief judgment, we have considered every matter advanced on the merits.
